In laboratories, healthcare environments and production areas, personal skin care is essential!

Wearing gloves all day; handling solvents, reagents, harsh detergents; constant hand scrubbing; all conspire to destroy skin integrity.

Decon's Essential Skin Care Line works to restore dry,

chapped skin and improve glove comfort levels.

Decon's Skin Care Line

Bacdown®

Bacdown Handsoap with Triclosan won't dry out your hands - even when you scrub 30, 40, 50 times a day! Bacdown's special formula is gentle on skin and has a pleasant almond scent, making it the first professional soap you will actually enjoy using.

Proguard®

Proguard Professional Handcream combines soothing skin emollients with a barrier film that seals in the moisture, seals out the problems. It is particularly effective in improving latex glove comfort, so if gloves irritate your hands, you need Proguard. Non-greasy, non-perfumed, absorbs rapidly and will not break down latex gloves.

Proguard® Plus

Proguard Plus uses the same popular formula as our regular Proguard, but with the addition of Triclosan.

Bacdown®Gel

A smooth alcohol gel in a convenient squeeze or pump bottle, Bacdown Gel is always ready to instantly cleanse your hands when you're away from the sink. Meets OSHA's handwashing guidelines. Convenient and effective, Bacdown Gel is an essential part of your personal skin care program.

Bacdown®Foam

Bacdown Foam is a gentle foamed-alcohol skin cleanser ideal for hand cleaning when soap and water are not readily available. Emollient-enriched formula will not dry skin or cause the kind of irritation typically linked to alcohol-based products. Meets OSHA's handwashing guidelines. The 11 oz. size is designed for wall mounting for single-hand dispensing.
