

Professional Handcream with Triclosan Technical Data Sheet

-BRIEF DESCRIPTION -

Proguard Plus is for the professional whose laboratory or healthcare work environment causes dry, cracked hands and skin irritation. Proguard Plus Handcream, with Triclosan, combines emollients to moisturize the skin with a barrier film that seals in moisture and seals out problems. It is non-scented, non-greasy and absorbs instantly.

- LATEX GLOVE SAFE -

Proguard Plus will not degrade latex gloves and may improve your comfort level when wearing gloves all day long.

- USE PROCEDURE -

Pump one shot onto dry hands every time you wash and before gloving. Rub into the skin until absorbed. Extremely dry skin may require a second application. To maximize skin care wash hands using Bacdown Handsoap.

- INGREDIENTS -

Water, cetyl alcohol, dimethicone, sorbitol, glyceryl stearate, solulan, tea lauryl sulfate, triclosan, propylene glycol, diazolidinyl urea, methyl and propyl paraben and tetrasodium EDTA.

- PRECAUTIONARY STATEMENT -

Proguard Plus is safe on even dry, cracked skin. Avoid eye contact. For severe or persistent skin disorders consult your physician.
