Revised 07/2003

- ACTIVE INGREDIENT -

ParaChloroMetaXylenol (PCMX).....0.5%

PCMX is a halogen-substituted xylenol that acts by microbial cell wall disruption and enzyme inactivation. Rapidity of activity of PCMX is intermediate, and it has a persistent effect over a few hours for transient microorganisms on the hands.

To moisturize skin and to help alleviate skin irritation from washing and glove wearing use:

PROGUARD®

Proguard comes in a 3oz. tube and a 16oz. pump bottle.
